## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/ES2004/000084

Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
-----------	---

## 1. Statement

Novelty (N)	Claims	1-10	YES
	Claims		NO
Inventive step (IS)	Claims	1-10	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-10	YES
	Claims		NO

## 2. Citations and explanations (Rule 70.7)

1. Document JP 9 215 540 A is considered to be the prior art closest to the subject matter of independent claim 1. Said document describes a drawer-locking system for a storage cabinet having a plurality of drawers, whereby only one drawer can be opened at a time. Said system includes locking rods that move vertically and cams that rotate upon movement of the corresponding drawer, in such a way that the corresponding upper rod is moved and the lower rod locked.

There are no examples in the prior art cited in the search report of a drawer-locking system with two bolts that move inside grooves, such as the system described in claim 1.

2. It follows that the subject matter of claim 1 appears to fulfil the requirements of PCT Article 33(2), 33(3) and 33(4).

Dependent claims 2-11 contain features that define alternative embodiments of the invention and fulfil the requirements set forth in PCT Rule 6.4.

## Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

1. In claim 4, the expression "said recovery means consist of ..." is not clear because the recovery means are defined for the first time in claim 6 (EPC Article 84). For the present claim 4 to be clear, it should be dependent on the present claim 6 and the claims should be renumbered.
2. Since no first and second segments have been previously defined in claim 1, the definition of a third segment in claim 8 is not clear (EPC Article 84).
3. Claim 10 makes reference to the preceding claims and mentions a third segment. However, a third segment is defined for the first time in claim 8. As a result, the reference in claim 10 to claims 1-7 is not clear (EPC Article 84).
